STEP 3: CHOOSE WHAT TO UPDATE

• Once MAPS MANAGER installed, you will see the reference on your chart and the updates available.

Your choice depends on the kind of data your are interesting in, but also your internet connection. The
« Update Vector » option is light (220MB) and will update fast, while the option UPDATE ALL contains more
data and will take a longer time to update

STEP 4: UPDATE THE CHART

 After clicking on the update your want to install, the download will start. Please wait until the end of the download and do not close the webpage or remove you card.
